it was♥♥♥♥♥br>. awful piece of♥♥♥♥♥game. Runs at a outstanding 10 FPS on a R9 390. And yeah everybodys gonna say "wah wah whah AMD's ♥♥♥♥♥ing♥♥♥♥♥whah whah" but I've done everthing to make this game work and even then it♥♥♥♥♥ WHEEEEEEE! DRIVE A ♥♥♥♥♥ING GARBAGE TRUCK!!!! WHEEEEEEEEEEEEEEEEEEEEEEEEEEE!!!. not good laggy. it wont let me play its keep saying somthing about GPU GLRENDER. The game need GPS for the jobs. game not work I PLAY IT COME A RED X WHY FIX IT OR I GET MY MONEY BACK

Bad graphics, poor gameplay, set the key controls and when you start the game you set the default, 60fps in media with "Good pc" and suddenly low to 15, really?.

Not what I expected, at all.

If I saw videos about this but decided to buy it and give it a try but no, impossible to play this game.

Greetings and to improve all this gentlemen, although I doubt it because they do not update it anymore.. My god , this is a Mess of a game.. i have a really , really good computer and this thing runs like i am using a potato for a gaming rig.

POOR Optimized and horrible controls. this game is one to avoid at all costs , even on sale , this game is a pass .

Whats good you ask ?? idk... you get to drive a truck ?! the city feels real-ish ?!

2/10. Bored after 1 hour. This "game software" is same industrial waste like any other German simulator-dump.

[Thank you so much for this bright future, dear uncle Dolfi! This is your legacy...]

I don't like this game because it is really broken because there is a error everytime i try to play!. There are some okay things like the fact that you actually get to do the work ie pushing the garbage can to the truck, dump it and then return it to the spot.

Now for the reasons why not recommending this game:

1. All the garbage/recycling trucks work the same.. Even the one that has the overhead arms and dumps in the top..
 2. The AI get so close to your truck constantly you either have to keep moving up and hope they give you enough room to fit the dumpster in or drive/park on the sidewalk
 3. it seems like every 5 minutes it is raining yet again, and again, and again.
 4. no variations for garbage truck, yet you have 3 different trucks for recycling stuff.
 5. Driving physics are poor. Can't drive somewhat decent and AI cars drive like they are driving a nascar race.
 6. AI hit you even when stopped and brake on and you get fined
- . Great game. Dont know why more people are not jumping on a game like this. Wish there was even more to do for the town. But with low sales. Just glad the game works. Keep it up.. YEAH BOY !!!! if you love construction sim and farm sim this is a must have and they have the MAN license i love it ok yes a little heavy on frames but turn off thunderstorms and post processing and it fixed it its really cool game i love it nice game guys and wheel support is a plus too thanks works great on my wheel dont abandon this what is this hate im loving it

LOOK GUYS ITS WHAT CONSTRUCTION SIM IS MISSING
